AG 	AGRICULTURE—CONSERVATION	AG District is established in recognition of agriculture as the predominant and basic use of land throughout much of the city and for the conservation thereof. Permitted uses in these districts include all forms of agricultural uses, plus special exceptions as indicated in Appendix A.
RS 	RESIDENTIAL SUBURBAN	This single-family district has been established principally to include lands that are generally characterized by two or more of the following conditions: substantial differences in topographic relief; extensive tree cover; heavy mucky or easily erodible soils; unusual drainage characteristics; outside areas of utility development; or are currently being developed in a distinctive pattern not adaptable to the customary manner of subdividing land for residential purposes. Requirements for minimum lot sizes and ground floor areas of structures are substantially greater than those of the other residential districts.

Single-family residences are also permitted on a density basis somewhat higher than R2 Districts. The R3 requirements as to minimum lot and ground floor area of buildings are less than those for residential districts RS, R1, and R2.
R5	HIGH DENSITY SINGLE AND MULTIPLE FAMILY RESIDENTIAL	This is relatively high-density residential district with all types of residential development permitted. The minimum lot and ground floor requirements are the lowest of any residential district.
